

Project Architect

SP+A, an award-winning architecture, engineering and interior design practice, is seeking a licensed Project Architect with 7 to 10 years of experience in a design-oriented office to focus on educational/municipal/workplace projects and more.

The Project Architect is responsible for leadership and coordination of project team members and consultants throughout all phases of design, from conceptual design through construction administration. This role will assist senior leadership in design, managing production, mentoring staff, representing the firm to the client, and participating in presentations and meetings. Exceptional design talent and technical skills are required in order to oversee the planning and execution of project documents.

The ideal candidate will have a minimum five-year bachelor's degree or master's degree in Architecture, advanced knowledge in Revit, Sketchup and AutoCAD, and have a desire to grow professionally with the firm. Excellent communication and leadership skills are required. A licensed/registered architect with LEED certification is strongly preferred.

SP+A is in office 5 days per week. We're eager to learn more about your qualifications and interest in joining our team! Please submit your resume and portfolio to: info@silverpetrucelli.com

SP+A is committed to generating opportunities for next-generation architects, engineers and designers to tackle projects with attention to design and technical excellence. We believe the differing backgrounds and experiences of our staff enriches our design process. Appreciating the value of homegrown talent, we promote an inclusive work environment in which everyone can achieve their full potential. We are organized internally to support and mentor individual development, promoting the advancement of the entire organization. We often play revolving project roles, taking the responsibility our clients place in us very seriously. Our projects are a testament to our values and tell our story.
